$\mathrm{T}=$ Door thickness
$A=$ Minimum gap (A) for door with a door edge radius
$L=$ Gap between door and panel

## Note:

The minimum parameters in the reveal tables are based on doors with straight, square edges. A rounded or beveled profile will change the minimum reveal required.

Hinge Adjustment

## Note:

The referenced adjustment range described is the product design range. The actual design of the cabinet and the drilling method may have a certain impact on the parameters.
